HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling invented by H. R. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt, screw or nut, is therefore easily and speedily separated. It rests in Gutta Percha so as to be entirely free from rattling, and which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient, safe and secure.
It is easy to change the old style of coupling on any buggy or other vehicle to the new, and with small expense. We have consulted the [illegible] now [illegible] ourselves and recommend [illegible] all cases. We consider it far superior to the [illegible] Patent [illegible] to be considered the best in use.

So far as heard from the Democrats have gained in all parts of the State. Net gain of 856 in 46 towns scattered through six counties. Jewell concedes the election to English and the Democrats are as jubilant as the weather permits.

They threaten to supply themselves with ammunition from the only ammunition store in the place. Four citizens are still missing. They went out with the men whose mutilated remains were recently brought in and were probably murdered by the same band.

The Northern Pacific Railway

From the Washington Chronicle March 2.

That the unceasing development of our great West already calls for new lines from the [illegible] to the Pacific is a truth [illegible] [illegible] Few years will elapse before two additional roads [illegible] will be completed, one to the north and the other to the south of the existing [illegible] Of these the most interesting to the country and to the world at large is that which is known as the Northern Pacific Railroad, which is to extend from the western extremity of Lake Superior to [illegible] Puget Sound [illegible] Washington Territory [illegible] the rapid construction [illegible] of almost [illegible] interest to the country at the present time [illegible] In the first place [illegible] Northern Minnesota [illegible] [illegible] It is estimated [illegible] that there will be half a million of population in the valley of the Red River of the North within the next decade. As in the case of the Union Pacific railway the progress of population will keep pace with the construction of the road, villages, towns and cities will spring up as if by magic and within a few years the entire line will be flanked by a comparatively dense agricultural population.

The new route has an advantage over the Union Pacific line in the fact that it has no great American Desert to traverse, that the greater part lies through territory rivaling in fertility and adaptation to agriculture with any of the States of the Northwest, and that to the north in the British Possessions lie territories equally fertile and habitable, large enough for ten average American States.

Owing to the spherical configuration of the earth the distance between Lake Superior and the Pacific by this route is several hundred miles shorter than it appears to be upon the flat maps which are drawn upon Mercator's projection. This will ultimately be found not only the shortest but the most available route for the great inter-continental Asiatic trade. It will be the highway from New York, Philadelphia and Chicago to the Oriental world. Duluth the eastern terminus on Lake Superior is, in reality several hundred miles nearer the Pacific than Chicago, and strange as it may seem, it is also as near as Chicago to Montreal and Quebec by the line of water communication. It will be remembered that vessels leaving Chicago for the Atlantic coast have to ascend the whole length of Lake Michigan to the Straits of Mackinaw where they turn southward into Lake Huron. Duluth is to Lake Superior what Chicago is to Lake Michigan. Vessels leaving these two ports at the same time would therefore arrive at Mackinaw nearly together but with this further advantage to Duluth that Lake Superior being much larger and deeper than Lake Michigan is less obstructed in the winter by ice.

It is curious to glance at a map of the regions to which this railway will minister and to correct the erroneous ideas which have obtained universal currency as to their comparative fitness for the habitation of man. Who would imagine until it were proved by the the map that St Paul, Minnesota, is nearly a degree to the *south* of Venice? Would one person in a thousand believe without investigation that the parallel of 49 degrees which separates the United States from British America is almost the latitude of Paris? Will it not create universal *surprise* to be told that the southern extremity of Hudson's Bay is somewhat to the south of London, and that the parallel of Edinburgh strikes our Pacific coast in the neighborhood of Sitka? Yet such is the case. The influence of isothermal lines is only beginning to be understood in American geography, and it will doubtless be strange news to the great majority of American citizens that a line may be drawn from Cincinnati *straight northwest for 2,000 miles to Athabasca Lake*, and that upon this whole line the average summer and winter heat will vary but a few degrees. Such is nevertheless the case. This region is the great garden of America—a region of which not more than one-fourth is as yet open to settlement.

With these facts before us we arrive at the deep political significance of the Northern Pacific railway at the present moment. It solves *in our favor the problem of British American annexation*. That immense region lying to the north of Minnesota, Dakota, Montana, Idaho, and Washington Territory is a portion of the garden of the world. It will yet be filled by scores of millions of people, [illegible] whose route thither will be by the Northern Pacific railroad.

Working Against Each Other

It has been evident for some time that several hands are taking turns at the editorial bellows in the *Herald* office The contradictory positions assumed by that paper can scarcely be accounted for in any other way The different hands at the bellows alternately blow high and blow low, and many "leaders," intended to come forth red hot are spoiled in the making The shifts and fetches and contradictions of the Organ indicate how difficult it is for different members of the party to decide what their principles are, and what policy they should pursue By none of those connected with the party is this perplexity shared to a greater extent than by the various writers employed from day to day to fill the editorial columns of the *Herald*.

From the adjournment of the Democratic Convention until yesterday, the *Herald* resolutely held that bonds bought at depreciated rates should be paid at depreciated rates, less the interest paid on what is called the "bonus" since the bonds were first sold. Some of the bonds realized the Government only forty to sixty cents on the dollar in coin. The *Herald* has calculated that under the system of "equitable adjustment" proposed by its party, these bonds would be cancelled without paying any more on them Fay thinks the same system would make the bondholders "disgorge" what has already been paid, and the *Herald* has approved of Fay's idea So much for the position held by the *Herald* last week. But now it comes with another proposition. It says the bonds are payable in greenbacks, and "if the bondholders will take greenbacks they shall have the full face of their bonds" Greenbacks are now worth ninety cents, and will soon be of equal value with gold. Therefore the *Herald*, which last week argued for repudiation by what its party calls "equitable adjustment," now expresses its willingness to pay the debt in greenbacks worth ninety cents on the dollar, with a prospect that before a year they will be worth their face in coin What position the "organ" will take next week we cannot guess, nor would we venture to say that it will hold to its present position till this week closes.

This article of the *Herald's* is the result of an attempt to show that there is no parallel between the supposed case of "equitable adjustment" of railroad bonds bought below par, and the "equitable adjustment" of the public debt on the basis proposed by the Democratic platform. It is said that the cases are not parallel, because in the case of the national securities, "the contract was for repayment of greenbacks, with interest in coin." Unfortunately for the force of this argument the statement on which it is based is not correct. It was never contemplated to pay the national bonds in greenbacks, for the reason that the greenbacks themselves are a part of the debt, and it is no payment at all to substitute one promise to pay for another. This matter has been discussed repeatedly during the last four years, and the people have given their verdict upon it. Pendleton, the author and champion of the scheme, went down last year while advocating it, and will never come up again. The *Herald* tells us that the proposition to repudiate by so-called "equitable adjustment" has "succeeded the proposition to pay in the legal tender notes of the country." If the *Herald* would only state which one of these propositions it intends to adhere to we might be able to make out its position. But it pronounces now for one and now for the other, and even declares for them both in the same article. Little is to be gained by following it through its quibbles, but we may ask properly enough if it supposes that this scheme of repudiation by "equitable adjustment," which it says has succeeded the proposition to pay in greenbacks, can win, when the greenback proposition itself was rejected everywhere by the people?

It is clear that if our railroad companies, who sell bonds below par in Europe, may not refuse to pay the full amount called for on the face of their bonds when they fall due, our Government may not refuse to pay the full amount promised on the face of its securities. These cases are exactly parallel, and the *Herald* will have to try something better than arguments by which it contradicts itself at every turn, to show the contrary. Our advice to that paper (for which we charge nothing) is that in selecting writers to fill the necessary space in its columns each day, it would do well to look for persons who will not persistently contradict and work against each other.

Without a Parallel

In no other State is Democracy the factious, refractory, unreasoning thing it is in Oregon. Elsewhere it does occasionally give a few signs of progress and show a sort of conception of the duties, requirements and changed condition of the times But here it gives no such signs Its platform from beginning to end is a stupid and unavailing protest against the inexorable march of events. It is a fulmination against the results of the great struggle of the last ten years. Not one line or one word can be found in it to show a liberal or enlightened spirit in those who have promulgated it not a syllable does it contain which is not antagonistic to any theory on which this Government could be conducted. The Democratic party in other States, unprogressive as it is, would be ashamed of such a platform and would repudiate it as unworthy of any party claiming to share the intelligence of the age

In what Eastern State would the Democratic party take a position against the Fourteenth and Fifteenth Amendments and try to make a fight on the issue of rescinding them? In what Eastern State would that party utter such a senseless and violent diatribe against the Chinese and declare that they ought to be excluded from the country? In what Eastern State would that party at this late day denounce the reconstruction measures and attempt to make a fight against them? And especially, in what Eastern State would that party place itself on the record as favoring a repudiation of the national debt and glorying in such an act of infamy? Examples shall be searched for in vain such madness as that which affects the Democratic party of Oregon can find no parallel

Recent Elections

On Monday the regular annual election took place in Connecticut The day was a very stormy one and a light vote was polled. The Democrats in consequence seem to have elected the Governor, while the Republicans have the Legislature For years Connecticut has been one of the most closely contested States in the Union, and the two parties have carried it alternately On all great occasions when the Republicans make an effort and get out their vote they carry it. Hereafter they will have the help of the colored voters who could not register in time for this election

In other places where elections were held on Monday the results were generally favorable to Republicans Cincinnati goes Republican by a sweeping majority, although Pendleton carried it last fall by over one thousand In the Toledo (Ohio) District a special election was held to fill the vacancy caused by the death of Congressman Hoag [illegible] Democrat and Peck (Republican) is elected None of these elections however are of much consequence as they were not strongly contested between the two parties

Editorial Notes

We hear that the editor of the *Enterprise* is going to leave Oregon City in a short time to look for a place of residence in some retired spot where the competition of Chinese is not so strong In other words, that he is going into the mountains of Eastern Oregon

The Eugene *Guard* thus records its political convictions "Progress pleases some Progress is desirable—provided always, that it be in *the right course* A man may *progress* from petit larceny to murder. Should he do so? No!" Here's political wisdom, "the bearing of which lies in the application on 't."

A statement made in an article on the Oregon and California railroad, published yesterday, may be corrected in one particular We stated that it was possible the road would be completed to a point one hundred miles distant from Portland this year This might have been made more emphatic, as we have since been informed that there is no question whatever but that the road will be completed for this distance (one hundred miles) by the end of December of the present year.

That intelligent and candid journal, the *Oregon Herald*, which "always knows," denies that there has been any reduction of the public debt, and says that Secretary Boutwell's statements are not to be believed And then the question is asked, "Cannot some Radical paper back the Secretary's statements with a few supporting facts?" We answer with another inquiry,—"Cannot some repudiation sheet back its denial of the Secretary's statements with a few supporting facts," so as to give its party the advantage it would derive from impeaching those statements? Alas for the cause of Democracy, no!

A Democratic contemporary in talking about repudiation wants to know "if soldiers are not as necessary to carry on war as money?" We do not quite see the relevancy of this inquiry, but will answer that it is about as wise as it would be to ask if muskets are not as necessary to carry on war as money Money will always get both soldiers and muskets. Great Britain put down Napoleon with her money, and the negro republic of San Domingo, if it had credit enough, could fight any leading power of the world But the greatest of nations, if it had no credit, could not carry on war against the smallest. And the repudiators of our country, who would destroy our credit, would take away our only defense and disarm us more effectually than if we had not a single soldier

Prof. Simpson's Lecture.

This gentleman's lecture at the Philharmonic Hall last evening, on GEORGE PEABODY, was one of the most original, discriminate and altogether interesting we ever had the good fortune to listen to When we rose up to leave the room we were grieved and surprised to see so small an audience present, and particularly, so few of the business men of the city, to whom the lecture would have been both instructive and entertaining After giving a rapid but lucid sketch of Mr Peabody's business career, the lecturer proceeded to delineate and portray his character and the lesson and moral of his life, closing with a fitting and eloquent tribute to the man who had done more by his judicious and munificent beneficence, to bind together with cords of love the two great English-speaking races of England and America, than all the diplomatists of the country.

Mr Peabody, said the lecturer, owed nothing to luck or genius. His education was limited, his abilities were moderate, but he had an honest heart and a strong persistent will. His life was regulated by sense of duty, and no prospect of gain, however great, could tempt him to indulge in even the questionable practices, let alone the down right rascality now so common in the stock markets of the world His life, said the speaker, "was thoroughly premeditated and bore the hammer marks of contrivance throughout. He built upon the bed-rock of poverty and cut every stone in the temple of his fortune from the quarry"

The lecture was full and replete with original observations and clean cut, beautiful tropes and figures Some of these we would like to reproduce here, but we are afraid to trust our memory with them His parallel between Peabody and the corrupt and unscrupulous money grabbers and stock brokers of to-day, such as Fiske, Gould, Drew and Vanderbilt was eloquent and just, and he said that the example of such a man as Peabody was necessary to correct and tone up the ever lowering sentiment of American commerce and business and save its modern Sodom of commerce from the just judgment of an offended God

We would like very much to hear Prof Simpson deliver this lecture again, before he goes home, in the Oro Fino Theater to a full house We understand that he does not return to Salem for a few days and hope arrangements may be made to that end, as an atonement for the limited audience of last night

To the Republican State Convention.

SACRAMENTO March 29 1870

I have not had time to watch very closely the progress of political events in Oregon during the last few months but it is my understanding that the Democratic State Convention has already been held and that, following the advice of Brick Pomeroy it has proclaimed in favor of disgracing the nation by violating its obligations to its creditors. I have not heard what position the Democratic platform occupies relative to the Chinese question but suppose it is consistent with the past record of the party on this coast Those two questions the financial and the Mongolian questions—will probably enter most largely into the discussion which will take place before the people of our State prior to the next June election As a citizen of Oregon I take a deep interest in the result of the approaching contest As to the nature of this result much depends upon the political creed to be announced by the Republican State Convention which is to be held at Portland on the 7th proximo I am not a candidate for any office and have never solicited a vote in my life I have always voted the Republican ticket because I believed the party to be the representative of that policy which is most likely to advance the true interests of our great country I shall be at home in time to cast my vote in June and desiring that the Republican party may be true to itself in the coming struggle, hoping also that a few words from an earnest member of the party—one of the people—may not be without influence for good upon the members of the State Convention, I wish to offer some suggestions

Concerning our finances there is no doubt that the Convention will be united in opinion Our opponents will probably make loud charges of extravagance against us There is however no ground for such charges against the State expenditures to the injury of the Republican party Although the experience of the past has taught us wherein some important retrenchments may be made, the money heretofore expended, has been as wisely disbursed as possible with the lights before us But one department of the State government has cost too much and that is the asylum for the insane This cost is due to the system of contracting for the care of these unfortunates and can be remedied only by the State building for itself This much has been learned by experience, I think, and no party is particularly to blame for the past conduct of the asylum Our State is by far the most economically managed of any other on this coast California was created by the Democratic party and is now exclusively under its control, yet it is the most extravagant State in the Union.

Our national finances have been so well managed that we have but to point to the results as sufficient evidence of the integrity and efficiency of the party when untrammeled by a factious Executive. Within a year after Grant's inauguration we find our credit abroad firmly established, and at home legal tender notes are so nearly at par that the question, once so much agitated, as to the payment of the debt in coin or currency has become a "dead issue" How ridiculous it is now to talk of repudiation! The party that endorses such a policy will meet with no favor from an honest like ours, and the young man who advocates that policy may as well cast aside all ambition for future honor from a people who love their unstained reputation for honesty as they love their liberty The leaders of the Democratic party will talk to us about the reforms they will make in the public expenditures when they gain control of the State and National Governments They talked this way in the last campaign in this State, and so loud and eloquent were they in their denunciations of the extravagance of the "thieving Radicals," as they often called our party here, that, by the aid of their fair promises in this and other respects, they achieved an overwhelming triumph in California. The Legislature, which is now nearly ready to adjourn, met in December last, under the fairest possible circumstances for the Democratic party There was so small a minority of Republicans in each house that the Democrats were perfectly independent. They had the Governor, too, and all the other State officers, which you know are very numerous and very well paid here. The people were burdened with heavy taxation, varying from three to five cents on the dollar. The Democratic party was pledged to retrenchment, to reform in special and partisan legislation, and to prevent, by all available means, the immigration of Mongolians. The Legislature costs over $2,000 a day. All the necessary work could have been done within sixty days without haste. In current expenses alone this Legislature might have saved the State $120,000 To have redeemed its pledges to the people it should have held a session of not more than sixty days If, when it met, it had gone to work with the honest industry the people expected, passed a general franchise law, funded the State debt at the lowest possible rate of interest, followed the advice of the Governor and the Attorney General, by enacting the few necessary laws and none others, practiced strict economy, avoided all partisan legislation, and then adjourned within the time mentioned above, the Democratic party would have been firmly established in this State for years to come Then there would have been some reason, perhaps, in the Democratic party of Oregon asking to be entrusted with power, and there would have been some grounds upon which the party could have asked the people of the entire Union to entrust it with the management of the general Government. But what has been the result? On the third day of the session, before the usual notice of organization had passed between the two houses, and before the Governor's biennial message was delivered, a bill to oust a Republican School Superintendent in San Francisco, and to put a Democrat in his place, was introduced, put through the several readings under suspension of the rules, and passed! This is a key to the kind of reform in partisan legislation which the Legislature followed throughout the entire session, wherever an opportunity has been offered to legislate a Republican out of office and to legislate a Democrat into office, it has been improved And this is not all, new and unnecessary offices with fat salaries have been created, apparently with no other design than to give places to partisans Relief bills too numerous to mention in a newspaper article have been passed over the adverse recommendation of the committees on claims, by which thousands of dollars will be taken from the Treasury for which the State has not received and never will receive an equivalent One of these claims, which passed by a large majority, but was finally defeated by the Governor's veto, was a bill for the relief of L P Hall and S J Garrison whose printing press was destroyed by a mob in 1862 for its offensive language against the Government and our soldiers The bill asked for $4 000 from the State for the destruction of a country newspaper press not worth over $1 500 at most In discussing this bill, the eloquent and popular Senator from Napa, Mr Pendegast, declared himself in favor of paying all claims for damages received by Democrats during the war, although it should bankrupt the State, as he believed it would, and he hoped to live to see the time when, the Democratic party being in power the General Government would be compelled to reimburse the several States for such claims paid or pay them from the national Treasury. The Democratic majority has attempted to bolster up its sickly party newspapers by passing a bill by which litigants are "protected" by requiring them to advertise summonses, etc, in an official county paper to be designated by a Democratic Judge and another to establish an official State paper, in which certain legal advertisements, although published in the county papers are to be republished The number of clerks and attaches of this Legislature are far in excess of those of any of its predecessors The Senate composed of forty members, has had sixty attaches drawing an average of over five dollars a day! A little postage item of $40 in coin for each member and officer of the Legislature is put down against the State But it is unnecessary to go into details now Any one who has read the newspapers here will understand the character of reformation and retrenchment which has been made I will simply sum up by saying that the pledge of economy and of reform in improper legislation was never so flagrantly violated as it has been by this Democratic legislative body In addition to an extravagant expenditure of money from the State treasury the way has been prepared by which less than a dozen counties are to be saddled with a debt aggregating about $8 000 000 unless the Governor by his veto, can yet prevent the consummation of those schemes So numerous have been the plundering bills and so powerful has been the support they have received that, although many of them have failed the disgust awakened by them has brought the Legislature to be scoffed at and derided on the streets and even in the public places of amusement

How have the pledges of the Democratic party in regard to Chinese immigration been kept? Three bills have been passed, two requiring Mongolian immigrants to give proof of good character, and one to vaccinate all persons coming from from Asiatic ports! This is all, and these bills are even by many Democrats believed to be unconstitutional There was a way in which Chinese immigration could have been very effectually discouraged without conflicting with any law This was to prevent the employment of Mongolians upon railroads receiving subsidies from towns and counties on penalty of forfeiting such subsidies The proposition was brought up in a separate bill, and was indefinitely postponed It was also proposed by way of amendments to the several bills to authorize the counties to aid the railroads and it was invariably killed by a decided vote Mr Irwin from Siskiyou, a very clear headed man, by the way frankly admitted by way of parenthesis when speaking of this matter that if the Democratic party were in control of the General Government it would not adopt the policy of discriminating against any people

I will conclude then by hoping that the Republican State Convention will not yield to the prejudices which some people on this coast entertain against Mongolians While we remember with pride and gratitude that we are Caucasians let us not forget that we are also men and that all men were created by the same Almighty Power and have an equal right to seek any part of the earth's surface for the purpose of bettering their condition in life It has ever been the glory and pride of our countrymen that ours is the freest nation on the earth and to-day throughout the world our fame is fairer than ever before and the oppressed and downtrodden [illegible] thank God in their hearts for the hope that although they may not be able to enjoy the blessings of our institutions, their posterity may some day reach the land where all men are equal before the law Shall we then disgrace ourselves by a [illegible] of discrimination against this people which is not even tolerated in the most tyrannical governments of the old world? I trust not I know the warm hearted and high minded people of Oregon too well to doubt for a moment that they will discard the party that will do it I am familiar with the arguments made use of by demagogues to prejudice laborers on this question We must not forget that we are no longer isolated from the world as we once were Although we cannot make fortunes so rapidly now as we once could we can retain what we do earn with greater ease and enjoy more of the comforts of life than before Chinese are not the most desirable class of immigrants I admit But instead of oppressing them let us take measures to secure the class of immigrants which we do desire and thus counteract the evils which might result from too numerous an immigration of one class W

On the 31st ult, the dead body of Joseph Maddox was found on the beach in Grey's Bay a short distance north of Cementville He had previously been a resident of Astoria and vicinity for four or five years was a sober industrious and exemplary man and not known to have any enemies At the time of his disappearance he was living in a cabin with Alex Ross, a settler on Grey's Bay, who was temporarily absent at the time. He was last seen on the morning of February 22d. His skiff was found next day floating below Chinook with the oars his hat, an ax, and a cross cut saw He has no relatives living in this vicinity, but is said to have two sons living somewhere in California He was supposed to have a little money, but none was found among his effects. Justice Kelty of Chinook, acting as Coroner, summoned all persons living in the neighborhood and made a searching investigation, but nothing was elicited to throw any light upon the authorship of the murder, for it was evident he was murdered The jury in the case returned a verdict that "the deceased is supposed to be a native of Maine, about 58 years old, and that he came to his death on or about the 22d day of February last, by blows on the head, face and breast, inflicted with a club or other heavy weapon, and was afterwards sunk in the water by a stone being tied around his body, said death caused by some person or persons unknown to the jury"

The Washington correspondent of the Eugene *Journal*, writing March 14, says. "To-day the contracts were awarded for carrying the mails on the Pacific Coast from the 1st of July 1870 to June 30th, 1874 The overland mail from Oroville to Portland, daily, was let to Theodore Lee, of Utah, for $80,000 per annum, the route from Salem by Scio, Lebanon, Brownsville, Diamond Hill, Pine, Willamette Forks, Springfield, and Rattlesnake, to Pleasant Hill, weekly, to Knox and Callison, for $1,395, from Eugene City by Siuslaw and Long Tom, to Franklin, weekly to Wm Eberts, for $480, from La Fayette by Dayton, Amity, Dallas, and Lucklamute, to Corvallis, twice a week, to F. CITY.

THE SCHOOL REPORTS.—Agreeable to the request expressed by a vote of the friends of education at the school meeting, held in this city on Monday evening, that the city papers publish the reports, etc., presented there by the officers of the District, we yesterday applied to the retiring clerk, Mr. Ed. Quackenbush, who kindly furnished us with the documents in his hands. We have condensed the report of the clerk somewhat, nevertheless it will be found to contain pretty much all that is of interest to the tax payers.

REPORT OF THE CLERK.

This report shows receipts from all sources, and the expenditures made for all purposes during the year ending April 4th 1870. In a brief explanatory note the clerk says: "The report submitted by my predecessor and which was printed in the newspapers of April 5th, 1869, showed a balance of cash on hand, $4,958 64. I received from clerk, J. F. McCoy, $4 053 42, being less than report by $905 22. This amount was undoubtedly expended for District purposes, after the report, and before the newly selected officers entered upon their duties, hence does not be long in the body of the report for the past year. As near as I can ascertain it was expended as follows:

DIRECTOR'S REPORT IN FULL.

PORTLAND, April 4, 1870.

To the Voters of School District No. 1., Multnomah County: The Directors of said District [illegible] report of their doings and of [illegible] District for the year ending April 4th, 1870, as follows:

[illegible] have been kept under the direction of [illegible] Board in all the buildings owned by the District, in the rented building, corner of 4th [illegible] streets, as specified in Exhibit "A" [illegible]. We refer to Exhibit "A," [illegible] concerning teachers now employed, [illegible] attendance, and time of closing [illegible] year.

The High School has been found highly beneficial to the educational interests of the District, [illegible] the other schools, always too full, [illegible] facilities for an advanced grade [illegible] not possible to be provided in the [illegible] by any other mode.

The grading of the schools so much needed, [illegible] only partially done. We find many ob[illegible] to the establishing of fixed grades in the [illegible] as have been adopted in model [illegible] some other places—among which are [illegible] of attendance by the pupils, want of [illegible] inconvenient locations of some of [illegible] with reference to the residence of [illegible] variety of editions of text books issued [illegible] publishing houses, and the absence [illegible] of General Superintendent within the [illegible]. These are, however, being [illegible] overcome, and it is hoped that during [illegible] year some clearly defined grade may [illegible] and maintained.

[illegible] buildings and grounds are now in [illegible] and repair. It has been found [illegible] during the year to provide new seats [illegible] that School house in one room entire. [illegible] authorities also required the streets south [illegible] of the Central building to be improved. [illegible] building also required a new roof.

[illegible] Street School house has been [illegible] to its internal arrangements by [illegible] a partition which separated the small [illegible] the rear of the main school room, so as to [illegible] room instead of two [illegible]. At that building also water has been brought into the yard for the use of the school, and the [illegible] north, and west have been improved. This improvement became necessary on [illegible] of a stream of water which, in the winter [illegible] Sixth street, and has twice carried [illegible] large portion of the dirt with which [illegible] hollow east and north of that building was [illegible] side walks with plank gutters and an elevation of the grade of Sixth street will, it is [illegible] any further expense at that point until the city authorities shall require the [illegible] to be planked. A summary of the expense [illegible] with each building is to be [illegible] in the report of the Clerk.

[illegible] of money received and disbursed [illegible] of the District will appear from the [illegible] report. The warrants drawn by this Board [illegible] and amount to the sum of $17 760 13. [illegible] sum of $8,591 24 (a part of the sum first [illegible]) has been expended for improvements and repairs of a permanent character. The sum of $240 26 upon demands due from [illegible] when we entered upon the duties of [illegible]. The ordinary expenses of the schools, [illegible] salaries, wood, incidental repairs, etc., [illegible] to $14,928 63.

The District is entirely out of debt,—every [illegible] against the District known to this Board up to date of this report, except a bill for planking and grading at the north of the central building [illegible] having been paid. The balance in the treasury [illegible] with to commence the operations of [illegible] ensuing year, is $5,134 50, coin, currency [illegible].

This Board have been unable to enlarge the [illegible] street school house for lack of ready [illegible]. The amount received from the former Board was scarcely sufficient to carry on the schools until the taxes of 1869 were paid. The teachers were obliged to hold their warrants not paid for want of funds, for a considerable period after the [illegible]. This Board feeling the necessity of [illegible] room, yet deemed it best not to incur a debt of any considerable amount for any purpose—and, [illegible] deemed it for the interest of the District not to enter into any building contract without money in the treasury to meet punctually every promise to contractors. This Board, however, repeat the recommendations of their [illegible], that the Harrison street school house be enlarged by adding a building of equal size with the present one. They also recommend the tax-payers to authorize the purchase of a block in the western part of the city for school [illegible], and the fencing and improving of the [illegible] so that shade trees and grass may be made [illegible] thereon before the erection of a building [illegible] in exhibit "B" an estimate of the [illegible] of what may be done next year, from [illegible] it may appear that there will be required [illegible] carrying on the schools as they now are, with [illegible] urgent repairs or improvements, or [illegible] teachers, the sum of about $15,000 [illegible] school house, is to be erected [illegible] or four more [illegible] employed, [illegible] be required for these purposes the additional sum of about $5,000. If the purchase of a block be authorized, a further sum of $[illegible] 000 to $7 000 will be needed.

To cover all these expenses a tax of not less than 2½ mills on the dollar will probably be required.

W. M. WADHAMS,
A. L. LOVEJOY,
I. D. SHATTUCK.

The *Cascade* took 91 head of cattle for east of the mountains, yesterday.

COMMITTED.—The three men arrested for robbing McKee, on Sunday night, were each held for trial yesterday. They were taken to jail in default of $1,000 each bail. Their names are *Thomas Trainor*, *Wm. Spence* and *James Ingalls*. From the evidence, it appears that they started with McKee from the San Francisco Exchange, on Yamhill street, between the hours of ten and eleven o'clock that night. They were identified as the persons with McKee and traced to the region of Oak and Third streets where McKee was soon afterwards found by officer Hudson in a state of bewilderment said to be produced from the administering of chloroform. The examination before Justice Anderson was conducted on the part of the State by Prosecuting Attorney Gibbs; the defense was made by Messrs. Durham, Ball, Caples & Moreland. "Spud" Murphy was sent up for assault, for a term of five days.

DESERVED PROMOTION—TESTIMONIAL.—The Chief Officer of the *Ajax*, on her late terrible voyage, has been promoted to the command of a steamer in the line. 2d officer James Carroll has also been promoted to the position of Chief Officer under Capt. Bolles, and the latter is now held in the highest estimation as a most noble commander. It was Mr. Carroll who dove under the *Ajax* at sea, and disengaged the line from the propeller. He was presented with a very valuable gold watch for his bravery inscribed as follows: "Presented to James Carroll, by passengers of the steamship *Ajax*, for untiring bravery, from March 23d to 28th, 1870. May God protect him." Other officers of the ship were recipients of testimonials from the passengers.

RECEPTION EXCURSION.—As announced by the committee elsewhere, the steamer *Senator* will to-day leave the Morrison street wharf at 1 o'clock P. M., with two bands of music and an excursion party on board, and will proceed to Milwaukie, where it is expected to meet the *Alert* with the delegation from the southern counties to the State Republican Convention, to assemble in this city to morrow. Republicans generally are invited and expected to attend and give the South a rousing reception. Delegates in the city from other portions of the State, and from this county, are particularly invited. The plaza concert is postponed on account of this excursion.

RATIFICATION JUBILEE.—The programme of exercises for the celebration in this city to-day of the ratification of the Fifteenth Amendment to the Constitution of the United States, appears elsewhere in this paper. This is, indeed, a most important event in the history of Oregon, and one of rich moment to a class of citizens participating, who now find the thraldom with which they have been bound down lifted from on them, and they step forth free men indeed. The public are respectfully invited. Several distinguished gentlemen are expected to be present.

A DESERVED COMPLIMENT.—speaking in reference to the large mail received here by the *Montana*, the *Commercial* says: "Some of it was for the interior, but the bulk was distributed at the Postoffice here; and, we may well take this occasion to say that, for the force employed, the distribution of this large amount of mail was performed in a very brief time. It is much to the credit of Postmaster Wakefield and his active, assiduous, skilled assistants, that matters go so smoothly in the Portland Postoffice."

BUTCHERY.—Two Chinamen were arrested yesterday for an assault upon another Chinaman, in the region of the Four Points of Portland. The assault was made by a score or more, armed with knives, cleavers, etc., and the most unlucky dog in the mess, Tung Sing, was nearly cut to pieces. He was lying in a Stall near Ye Lung's last evening, and a more wretched sight could not well be imagined than that presented by him and the surroundings. What the row was about, we were unable to learn.

TIMES ARE CHANGING.—Buck & Waldman have caught the spirit of the age, and are regulating their business according to the demands of the day. They intend making gents' goods their exclusive line, and hence offer in another place large inducements to purchasers who will call and take away the stock of dry goods now in store in the way of fresh arrivals of clothing, etc.

SALMON FISHING.—One thousand cans of salmon, the first of the season, were put up by Hume, Cook & Co., at Oak Point, yesterday. The Cathlamet and Westport fisheries will be ready to start work in a day or two. The preparations this year are three times as extensive as ever before made for fishing at the Columbia fisheries. A new establishment has been opened at Chinook.

NEW RESIDENTS.—We understand from Mr. Wm. Davidson that he has negotiated the sale of the south half of block J, on Alder, between Eleventh and Twelfth streets, to Messrs. T. H. Veasy, Henry Holmes, and W. Mitchell, all of Umatilla county, for the sum of $4 300. We presume the parties are purchasing for the purpose of securing homesteads in this city.

REMEMBER THE HOUR.—The excursion steamer will leave the wharf at the foot of Morrison street, at precisely 1 o'clock P. M. to-day. Delegates to the State Convention who may be in the city, are especially invited to join in the excursion, and Republicans generally are expected to be on board. Let us give the delegates from the south a handsome welcome.

FIRST BOAT FOR LEWISTON.—The connections on the Columbia river by steamer leaving this city to-morrow will be through to Lewiston. The *Tenino* will make the first trip as per advertisement of the O. S. Co. under arrangements as above, and regularly hereafter until further notice.

ASTORIA FREIGHT.—The steamer *California* left a considerable amount of freight at Astoria for the use of the Government works at the fortifications. The *Montana* also left about thirty tons, mostly for the same purpose.

VERY ILL.—The wife of Rev. I. D. Driver is in a very critical condition at the Occidental from hemorrhage of the lungs caused by sea sickness on the late voyage from Victoria. Friends of the family will regret to learn of this.

NEW BOOKS.—The Portland Library Association have just added to their list "Representative men of the Pacific"; Gray's History of Oregon; Kit Carson's Life and Adventures, the Law Almanac.

EXTRAVAGANCE.—Geo. P. Bemis is throwing away postage stamps by the pre payment of documents from George Francis Train, sent to this office, which are of no earthly use.

CONCERT.—It should not be forgotten that one of the finest musical treats of the day in Portland, will be given this evening at the First Presbyterian Church.

BARMAN BROS present their compliments to the delegates in attendance to-day and invite them to call at their palace store in Odd Fellows Temple.

A general vote of the ladies on the Pacific Coast would show an overwhelming majority in favor of the Grover & Baker Sewing Machine. WM. CURRIER & Co. Agents.

H[illegible] young men who revel in fashion and wear store clothes, ye prudent men who buy goods to get the worth of your cash, ye old men who buy goods to last the remainder of your lives, or any other man or boy who wants to buy the cheapest and best clothing, go to Kohn & Fisher, who have just opened the largest stock of Gents Clothing and Furnishing Goods in the city. They have all the late styles, spring goods and propose to sell at rates that will please everybody.

What does Reason say?

The little mongoose when bitten by a deadly serpent resorts to a certain plant, eats of it, and escapes the effect of the poison. That is instinct. Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now, what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies let your monitor be experience. Well, the experience of eighteen years comprised in one unbroken series of satisfactory testimonials assures us that Hostetter's Stomach Bitters possesses strengthening, regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant. This, therefore, is the antidote to which reason bid us resort when our health is imperilled either by the malaria which produces epidemic disorders, or by any other cause, whether inherent and constitutional or connected with our habits, occupations and pursuits.

The venom of a noxious reptile is scarcely more subtle and dangerous than that which lurks in foul air and impure water. To escape the fevers, billious disorders, disturbances of the bowels, and other serious maladies produced by these insalubrious elements it is necessary that the stomach and all the secretive organs should be so to speak, in a robust condition. Upon the amount of resistance which the vital system can oppose to the deleterious influences that assail it, the safety of the health depends; and it is because the GREAT VEGETABLE INVIGORANT imparts energy and regularity to the most important functions of the body, that it can be recommended and guaranteed as an invaluable preventive medicine.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his mixed coffees, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers the very flattering, though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

FINANCE AND COMMERCE.

PORTLAND, Tuesday, April 5th, 1870.

No gold quotations to-day.

Legal tenders are without change.

We learn that a Treasury agent arrived by the steamer *Montana*, with a considerable amount of legal tender notes of the late issues. It is understood that he brings $60,000 for the 1st National bank of Portland, and that he will deposit other amounts in the land offices at Oregon City, Olympia and other places. He brought out about $2,000,000 for use on the Pacific coast. Very few of these notes had reached this State prior to this arrival. They are engraved in the highest style of the art and it is said that the cost of making imitations will be so great as to be quite an effectual bar against successful counterfeiting. It is understood they will mainly take the place of the old issues.

The New York *Times* of the 22d ult. has this paragraph: "The Income tax-payers who have been denied the deduction of mortgage interest on their homesteads paid as for 1869, will be interested to hear that a joint resolution of Congress was passed through the House of Representatives last week, on the motion of Mr. Butler, of Massachusetts, directing such deduction, by a unanimous vote, and in less than five minutes' time after its introduction. The joint resolution is now with the Finance Committee of the Senate, and there is little doubt that it will be concurred in. The instructions of Mr. Delano, the Commissioner of Internal Revenue, on this point, is universally esteemed alike arbitrary and indefensible, and the prompt action of the House of Representatives ought to satisfy him that he committed a blunder which he cannot too soon correct. Mr. Fenton of New York, a member of the Senate Committee on Finance, we have reason to know, has been written to on behalf of the Income tax-payers of New York to urge immediate concurrence in the action of the House in season to have this error corrected before the collection of the tax for 1869."

The Legislature of California recently passed a bill raising the rates of interest in the State where there is no special contract, from 7 to 10 per cent.

In relation to financial matters at San Francisco, the *Alta* of the 31st, says:

Money has continued very abundant during the week. There has been more movement in business and stocks, which has circulated money, and given strength to the growing confidence in the future. The disposition to lend money is more pronounced, and the tendency is to lower rates. The supply of coin has been large from the Mint. The San Francisco Refinery Company alone has sent in $1,200,000 this month. The coinage for the quarter will be $5,000,000 more than last year. There is also a supply from the interior, and there is a good supply of means of remittances. The rates of money are 1a1¼ at Bank; on commercial paper outside, 1¼a1½. Long loans on real estate, 10 per cent. per annum, and in some cases less. Some three months since we mentioned the sale of the San Jose railroad to the Southern Pacific Company for $3,500,000, the company to have 90 days from that time in which to make the payments. The first of these payments, $500,000, was made a few days since in gold coin, which arrived overland from the East. Two other equal payments will be made in all next week, when the San Jose railroad will pass into the possession of the new proprietors. The manner of these payments [illegible] the supply of coin here. The money is [illegible] to be the proceeds of Pacific Railroad bonds [illegible] in Germany through a foreign bank here. The [illegible] of money is illustrated in the operation of the Spring Valley Water Works, which offered $200,000, 9 per cent. bonds, and every bond was taken before 9 o'clock in the morning. The disposition to lend, and confidence in the future, are leading to renewed enterprise and the application of capital to general employment soon as the Legislature shall have adjourned. The demand for money for remittance has been light thus far, but the steamer *Constitution* for Panama leaves on Saturday, and the *Great Republic* for China on Friday.

The rates are 1½a1¾ premium for Coin Drafts on New York; Telegraphic Transfers, 1½a2; Currency drafts, 10¾; Bankers' Sterling, 48¾d; Commercial, 49¼a49½d; Gold Bars, 890a900; Silver do, par a½ premium; Refined Silver, 3a8¼; Mexican Dollars, nominal at 5a6 per cent premium. Silver coin, 1½ per cent. discount.

Total shipments of treasure from San Francisco since January 1st, aggregate $10,034,205, against $10,370,038 for the corresponding period of 1869. The imports of the [illegible], first three months 1870, were $2,289,069 against $711,368 in 1869.

Local trade is quiet in most all circles. There is a little ado to-day in Dry Goods and Groceries; otherwise there is nothing worthy of note.

The Superintendent of Indian Affairs will receive proposals at Salem till the 15th inst., for various lots of Wagon Material, Iron, Steel, Hardware, Farming Implements, etc.—the articles fully specified by advertisement in another place in this paper. Bids to be at Legal Tender prices.

Gen. Ruton, Chief Quartermaster of the Department of the Columbia, will receive proposals at Portland, till the 10th day of May, for the delivery in this city or at the Dalles of 250 Cavalry Horses, the delivery to commence on the 22d June, and to be completed by July 1st. Price per head to be stated in coin, for the whole lot or in bands of not less than fifty horses.

H. T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT BUCHU.

The Great Diuretic.

THE PROPRIETOR TRUSTS THAT HIS REMEDIES from the fact of being advertised, may not be classed as patent medicines.

BUCHU in one form or other has been presented by every educated physician for more than

TWO HUNDRED YEARS.

H. T. HELMBOLD claims a superior mode of extracting its virtues. The experiments were made while engaged in the DRUG business in the city of Philadelphia 19 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the liver or any other organ of the body. Upon the sound and healthy condition of these organs, the nervous system and liver were involved, and the happiness of the entire human family depended.

The BUCHU, acting favorably upon both Liver and Kidneys, to prepare it so it would retain its strength and active principle was his aim. It must not be made as housekeepers make tea, by boiling. It is a delicate Leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and of the long leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION IS ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

My Fluid Extract.

THE ARTICLE STANDS PRE-EMINENT, AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults—children. Ignorant persons, who pay no attention to dose, direction or advice, who might reason, "That if a teaspoonful taken occasionally did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipation and on this principle, but they had been years in doing so.

What I would have understood is that no injury can arise from its use. It is as safe as any article of food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle.

Notwithstanding the number of years I have been engaged in business, there may be those located at a distance that may not be aware of all the facts, and would like to be satisfied on all the points. Having been educated a druggist, I append the following:

From the Largest Manufacturing Chemist in the World.

"I am acquainted with Mr. H. T. Helmbold. He occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,

"Firm of Powers & Weightman,

"Manufacturing Chemists, Ninth and Browning Sts., "Philadelphia, Nov. 15, 1854."

I propose to give evidence that this remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "*Publicity*." If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge. We have yet to learn from what chapter or verse in Scripture to quote, "that men may not *heal others of their fellow-men of any disease*."

Nor have we asked "*Pickwicks, Affected Prudes*, or in short, *men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own*. The Buchu is a good thing—it has hundreds of thousands of living witnesses to attest its virtues and commend it. It is the prejudice of bigots and the envy of "QUACKS."

We offer the following evidence:

BUCHU.—Its odor is strong, diffusive and somewhat aromatic, its taste is bitterish, and analogous to that of mint. It is given chiefly in complaints of the urinary organs, such as gravel, chronic catarrh of the bladder, morbid irritation of the bladder and urethra, disease of the prostrate gland, and retention or the incontinence of urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in dyspepsia, chronic rheumatism, cutaneous affections and dropsy.

Cure of Gravel of Five Years' Standing —Stone Passed and to be Seen

SAVANNAH, Tenn., May 14, 1869.

Dr. H. T. HELMBOLD:—Dear Sir: We introduced your "Fluid Extract Buchu" in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county, named J. B. Estell, had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully yours, &c.,

Cure of Bladder and Kidney Affection of Long Standing—Stone Passed and to be Seen.

WESTPORT, Conn., Sept. 5, 1869.

H. T. HELMBOLD, Esq.: *Dear Sir*—I commenced taking your "Extract of Buchu" about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours, truly, THOMAS J. BENNETT.

Cure of Kidney and Bladder Affection of a Patient Seventy-eight Years of Age.

THANKS TO MR. HELMBOLD.

GIRARD, Pa., March 31, 1869.

Editor Cosmopolite: I desire, as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder diseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using, with little faith and no apparent beneficial results, for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use, and now, at the expiration of four months, although I am an infirm old man, nearly seventy-eight years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN

DR. KEYSER,

A PHYSICIAN OF OVER THIRTY YEARS' EXPERIENCE, AND A GRADUATE OF THE JEFFERSON MEDICAL COLLEGE, AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA

MR. H. T. HELMBOLD. DEAR SIR: In regard to the question asked me as to my opinion about Buchu, I should say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form of preparation of it I have not used or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, to my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powdered leaves, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to judge of its merits, and, without prejudice or partiality, I give yours preference over all others.

I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietary compound of whatever name.

Respectfully yours, &c.,

GEO. H. KEYSER, M. D.

A Case of Twenty Years' Standing.

PHILADELPHIA, Penn., June 25, 1867.

H. T. HELMBOLD, Druggist—DEAR SIR: I have been a sufferer for upward of twenty years with gravel, bladder and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory.

I am now able to report that a cure is effected, after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use on such affections.

H. T. HELMBOLD, Esq.—Dear Sir: I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your "Buchu" has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your "Buchu." I followed directions, and to my utter astonishment before I had taken seven bottles of your valuable medicine (I would give $100 a bottle, if I could not get it at any other price) I am entirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. Any information my fellow-citizens may require will be freely given by the subscriber, at his residence, No. 78 Milton ave., Rahway, New Jersey.

DR. H. T. HELMBOLD: Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant, A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance; and many a poor child, suffering more from weakness than from habit, may be spared punishment that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you on behalf of the children, and hoping others may be alike benefited, I am respectfully yours,

COL. YOUNG,

General Sup't and Director.

MR. H. T. HELMBOLD—DEAR SIR: Your communication requesting our terms for advertising was duly received, but from a prejudice I had formed against advertising "cures for secret diseases," it was left unanswered. During an accidental conversation in a drug store the other evening, my mind was changed on the character of your Buchu. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of advertising. Yours &c.,

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the efforts of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, foeted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.
